1. IMS and its contractors shall not be liable for damage, loss, or delay to uncrated freight improperly packed, glass breakage or concealed damage.

2. Relative to inbound shipments, there may be a lapse of time between the delivery of shipment(s) to the booth by IMS or its contractors and the arrival of the Exhibitor's representative at the booth. Similarly, relative to outgoing shipment(s), it is possible that there will be a lapse of time between the completion of packing and the actual pickup of freight from the booth for loading onto a carrier. It is understood that during such times the shipment(s) will be left in the booth unattended. Therefore, it is agreed that IMS and its contractors are not liable for the loss of, disappearance of, or damage to Exhibitor's freight after the same has been delivered to Exhibitor's booth, nor are IMS and its contractors liable for Exhibitor's freight before it is picked up from the Exhibitor's booth for loading after the show. Consequently, all bills of lading covering outgoing shipment(s) submitted to IMS or its contractors by Exhibitor will be checked at the time of pickup from booth and corrected where discrepancies exist.

3. IMS and its contractors shall not be liable for any damage incurred during the handling of equipment requiring special devices to properly load, place, or reload unless 14 days advance notice has been given to IMS in time to obtain the proper equipment.

4. IMS and its contractors shall not be liable for any loss, delay, or damage due to events beyond their reasonable control which cannot be avoided by the exercise of due care and prudence, including without limitation, strikes, labor disputes, lockouts or work stoppages of any kind, fire, theft, windstorm, water, vandalism, acts of God, mysterious failure of power or utilities, and other events of force majeure.

5. IMS and its contractors shall not be liable for ordinary wear and tear in handling of equipment.

6. It is understood that IMS and its contractors are not insurers. Insurance if any, shall be obtained by the Exhibitor. Amounts payable by IMS hereunder are based on the scope of the liability as herein set forth and are unrelated to the value of the Exhibitor's

property. It is further understood and agreed that IMS and its contractors do not provide for full liability should loss or damage occur. In the event that IMS or its contractors should be found liable for loss or damage to Exhibitor's equipment, the liability shall be limited to the specific article that was physically lost or damaged. Such liability shall be limited to a sum equal to \$.30 per pound per article, with a maximum liability of \$50.00 per item or \$1,000.00 per shipment, whichever is less, as agreed upon damages and exclusive remedy. Provisions of this paragraph shall apply if loss or damage, regardless of cause or origin, results directly or indirectly to property through performance or non-performance of obligations imposed by the offering of services to Exhibitors, or from negligence, active or otherwise by IMS, its contractors or their employees.

7. IMS and its contractors shall not be liable to any extent whatsoever for indirect, special, incidental, or consequential damages, including, but not limited to delay any actual, potential or assumed loss of profits or revenues, loss of use of equipment or products, or any collateral costs that may result from any loss, injury or damage to Exhibitor's materials or exhibitor personnel which may make it impossible or impractical to exhibit the Exhibitor's materials.

8. Claims for loss or damage must be submitted to IMS by the close of the show. No suite or action shall be brought against IMS or its contractor more than one year after the cause of action accrues.

9. The Exhibitor agrees, in connection with the receipt, handling, temporary storage and reloading of its freight, that IMS and its contractors will provide these services as Exhibitor's agent and not as bailee or shipper. If any employee of IMS or its contractors shall sign a delivery receipt, bill of lading or other document, the parties agree that IMS or its contractors will do so as the Exhibitor's agent, and the Exhibitor accepts the responsibility thereof.

10. IMS and its contractors shall not be liable for shipments received without receipts, freight bills or specified unit counts on receipts or freight bills, such as UPS or van lines. Such shipment will be delivered

to booth without guarantee of piece count or condition.

11. Empty container labels will be available at the IMS Service Desk. Affixing the labels is the sole responsibility of the Exhibitor or its representative. It is understood that these labels are used for EMPTY STORAGE ONLY, and IMS and its contractors assume no responsibility or liability for loss or damage to contents while containers are in storage or for mislabeled containers.

12. In order to expedite removal of freight from the show site, IMS shall have the authority to change designated carriers if such carriers do not pick up on time. Where no disposition is made by the Exhibitor, freight will be taken to a warehouse to await exhibitor's shipping instructions, and the exhibitor agrees to be responsible for payment of charges relating to such handling at the warehouse. IMS assumes no liability as a result of such rerouting or handling.

13. The Exhibitor agrees, in the event of a dispute with IMS or its contractors relative to any loss or damage to any of the Exhibitor will not withhold payment in any amount due to IMS for freight handling services or any other services provided by IMS or its contractors as an offset against the amount of the alleged loss or damage. Instead, the Exhibitor agrees to pay IMS prior to the close of the show for all such charges and further agrees that any claim the Exhibitor may have against IMS or its contractors shall be pursued independently by the Exhibitor as a completely separate transaction to be resolved on its own merits.

14. No credit or refund will be issued on any orders cancelled after the advance order deadline date.

15. No credit or refund will be issued close of event.

16. Consignment of shipments to IMS, Inc. and/or acceptance of shipments by IMS, Inc. shall constitute an agreement of all terms & conditions set forth in this manual.

HELPFUL REMINDERS ON SHIPPING

1. Ship in advance to the warehouse. Ship prepaid and keep an inventory and the tracking numbers of all your shipments.
2. Place a rider on your insurance policy from the time your exhibit and product leaves your possession until it's return. Your company is responsible for your exhibit and product.
3. Ship your freight and product via common carrier or van line to arrive on your target date. Use two-day air freight if you are on a tight schedule and **DO NOT SEND ANYTHING VIA U.S. MAIL.**
4. Be sure to remove old shipping labels before you send anything to the warehouse or to the show site.
5. While making your shipping plans for the show, also plan for shipping home after the show is over. Make sure that someone from your company will be on-site to oversee the outbound shipment of your display.
6. Take the extra time to ensure that your display and product are packed neatly and securely.
7. Provide General Contractor with the Freight Routing Form including the pro#/tracking # provided in the ESM in the event your shipment is lost.
8. If you ship by way of your own truck or car, it is important to have a delivery ticket prepared indicating the piece count and weight. You are invoiced for material handling based on weight. If no information is available, the weight is estimated by the unloading crew.
9. Consolidate as many pieces as possible into one shipment to avoid being billed for several minimum shipments. To reduce material handling costs (Drayage), ship all of your exhibit materials in ONE shipment. Remember, there is a 200 pound minimum charge per shipment.
10. Please be sure to obtain and complete an IMS Bill of Lading. Bills of Lading will be made available at the IMS service center on the final show day. Please be sure to return your completed Bill of Lading and any additional outbound information before you leave the show floor
11. Should you choose to use a carrier other than the official show carrier, please be certain to contact them with any necessary pick-up information. IMS is not responsible for contacting outside carriers for pick-ups

COMMON SHIPPING MISTAKES

1. Selecting a carrier that does not service trade shows on a regular basis. Unlike other shipments, exhibit material is time-sensitive.
2. Old labels left on crates and cartons, which cause confusion.
3. Not specifying what type of air freight service is desired, i.e., AM, PM, second day, and deferred service.
4. Not requesting insurance for valuable equipment. If a shipment is not marked "insured", it is basically covered for .50/lb per shipment.
5. Not giving clear instructions on how the freight is to be shipped:
 - A. not advising your carrier about your target date and time.
 - B. not including an accurate description or piece count.
 - C. not reading the exhibitor manual and shipping instructions; and
 - D. not filling out the forms properly.

Exhibits and materials for which arrangements have not been made with IMS, or which have not been removed from the exhibit area on removal day, will be transported to our warehouse, at an additional charge, to await disposition. IMS reserves the right to route exhibit material via an alternate carrier in the event that the requested carrier fails to pick up the shipment or refuses to accept shipments within five (5) business days following the close of the show. No liability will be assumed by IMS as a result of such re-routing or handling. Any freight brought back to the warehouse for special pick-up will be given an additional charge.

All exhibits or materials handled by IMS are insured at a value not to exceed \$0.25 per pound and is not to exceed a maximum of \$50.00 per item or \$1000.00 per claim, whichever is less. However, IMS and its subcontractors are not insurers. The amounts paid to IMS are based on the value of the material handling services and are unrelated to the value of the property being handled.

IMS and its subcontractors shall not be responsible for loss, delay or damage due to strikes, lockouts, work stoppage, fire, theft, windstorm, water, vandalism, acts of God, mysterious disappearances or other causes beyond its control, or for ordinary wear and tear in handling of equipment. IMS and its subcontractors shall not be responsible for the materials after they have been delivered to the booth, or before they have been picked up for loading at the exhibit hall.

IMS shall not be responsible for damage to uncrated materials, materials improperly packed, or concealed damage.

All Bills of Lading covering outgoing shipments, which are given to IMS by exhibitors, will be checked at the time of pickup from the booth and corrections made where discrepancies exist. Furthermore, the exhibitor recognizes there may be a lapse of time between the completion of packing and the actual pickup of materials from the booth for loading onto a carrier, and during such time, the materials will not be under the care or responsibility of IMS. IMS and its subcontractors shall not be liable to any extent whatsoever, potential or assumed loss of profits or revenues for any collateral costs, which may make it impossible or impractical to exhibit same.

Claims for loss or damage, which are not submitted to IMS within thirty (30) days of the close of the show shall be considered waived. No suit or action shall be brought against IMS or its subcontractors more than one year after accrual of the cause or action thereof.

In order to expedite removal of materials from the show site, IMS shall have the authority to change designated carriers, if such carriers do not pick up on time. Where the exhibitor makes no disposition, materials will be either taken to a warehouse to await exhibitor's shipping instructions (in which case extra charges will be the responsibility of the exhibitor) or shipped to the exhibitor's address.

The consignment or delivery of a shipment to IMS or its subcontractors by and exhibitor, or by any shipper on behalf of the exhibitor, shall be construed as an acceptance by such exhibitor (and/or other shipper) of the terms and conditions set forth in the above section.

Special handling applies to shipments that are loaded by cubic space and/or packed in such a manner as to require additional labor/handling, such as ground unloading, constricted space unloading, designated piece unloading, carpet/pad only shipments or stacked shipments. Also included are shipment integrity, alternate delivery locations, mixed shipments and shipments without individual bills of lading. Shipments loaded in this manner require additional time, labor, or equipment to unload, sort, and deliver.

What is Ground Loading/Unloading?

Vehicles that are not docked height, preventing the use of loading docks, such as U-Hauls, flat bed trailers, double drop trailers, company vehicles with trailers that are not at dock level, etc.

What is Constricted Space Loading/Unloading?

Trailer loaded “high and tight” shipments are not easily accessible. Freight is loaded to full capacity of trailer — top to bottom, side to side. One example of this is freight that is loaded down one side of a trailer that must be bypassed to reach target freight.

What is Designated Piece Loading/Unloading?

Drivers that require the loading crew to bring multiple pieces of the freight to the rear of the trailer to select the next piece, having to remove freight from the trailer then reload to fit or the trailer must be loaded in a sequence to ensure all items fit.

What are stacked Shipments?

Shipments integrity involves shipments on a carrier that are intermingled, or delivered in such a manner that additional labor is needed to sort through and separate the various shipments on a truck for delivery to our customers.

What is Alternate Delivery Location?

Alternate Delivery Location refers to shipments that are delivered by a carrier that requires us to deliver some shipments to different levels of the same building or to other buildings in the same facility.

What are Mixed Shipments?

Mixed shipments are defined as shipments of mixed crated and uncrated goods, where the percentage of uncrated is minimal and does not warrant the full uncrated rate for the shipment, but does require special handling. IMS defines special handling for mixed loads as having less than 50% of the volume as uncrated.

What does it mean if I have “No Documentation”?

Shipments arrive from a small package carrier (including, among others, Federal Express and UPS) without an individual Bill of Lading, requiring additional time, labor, and equipment to process.

What about Carpet Only Shipments?

Shipments that consist of carpet and/or carpet padding only require special handling because of additional labor and equipment to unload.

What is the difference between Crated and Uncrated Shipments?

Crated shipments are those that are packed in any type of shipping container that can be unloaded at the dock with no additional handling required. Such containers include crates, fiber cases, cartons, and properly packed skids. An uncrated shipment is material that is shipped loose or pad wrapped, and/or unskidded without proper lifting bars and hooks.

Preferred Format(s) for Incoming Graphics

Logos: Vector-based files always work best to create large-format graphics and signage.

Graphics Supplied by Client: PDF files distilled at high resolution with fonts and graphics embedded are preferred as each individual graphic MUST be scaled to proper size and dimension for final output/printing.

Other file formats are accepted:	Software	Type of file
	Adobe Photoshop:	EPS (Raster Based), PSD, TIFF (PC/MAC)
	Adobe Illustrator:	EPS (Vector based), .AI (PC/MAC)

File Format

Where possible, use EPS or TIFF format. Although there are many graphic file formats to choose from, it is safest when printing to a PostScript device to use EPS for vector graphics and TIFF for raster/bitmap graphics.

Vector graphics are object-oriented files which contain drawing instructions and are used by applications such as Illustrator or Freehand. (99.9% of logos fall into the "Vector" category) Fonts in these EPS files should be converted to "create outlines" or "convert to paths" this will eliminate the need to download the fonts for outputting.

Raster graphics are bitmapped files such as scans or screen shots. For TIFF files, be sure to have the correct amount of data in the file for the line screen which will be printed (see Digital Image Specifications). Use an image-editing program such as Photoshop or Live Picture for TIFF files. Allow bleed for all graphics.

Resolution

Minimum resolution of 96 dpi at final output size is required. Internet Graphics downloaded or saved from Web pages are not acceptable for print products. These graphics have low resolution images (usually 72 PPI), which are fine for screen display, but far below acceptable quality standards for print.

Color

All work submitted for digital color should be in the CMYK (Cyan/Magenta/Yellow/Black) mode; which is mode required for the printing process. Authors must ensure that color saturation-color balance is correct before sending files. If an RGB (Red/Green/Blue) file is submitted, dramatic color shifts can occur when we convert to CYMK. Be aware that most desktop scanners, digital cameras, and video capture systems save files as RGB so it will be necessary for you to convert to CMYK. This can be accomplished in many ways, please consult your software manual for details. If your logo or graphics use Pantone colors, include the PMS color information.

Fonts

Include your screen and printer fonts when sending PC files. All fonts used must be postscript fonts. True Type fonts are not acceptable in a postscript environment. As a rule, always convert text to curves to eliminate font issues. If True Type fonts are used, they must be converted into pixels or outlines and the entire saved as an EPS or TIFF.

Size

Ensure your graphics are submitted in the correct dimensions and proportions. Include a sufficient amount of bleed.

Proof

Always supply a hard copy of the digital image being submitted. This allows us to double-check the image.

Accepted Media and Transfer Methods

CD-ROM

E-Mail for files 1mg. and smaller

1.44 MB floppy disks: Mac or PC format

Please submit materials on time. If materials arrive late, we may not have enough time to notify you about problems and your graphic may be printed incorrectly. If you have any questions, please call and ask. If a graphic does not meet the required specifications, the graphic may not appear as you expect it.
