Thoughts on Leadership and Conflict in the Workplace

Dr. Woodrow Whitlow, Jr.
2 August 2023
Conflict – What is It?

Conflict can be defined as a difference or disagreement between two or more people
Conflict in the Workplace

- Conflict in the workforce is inevitable; it will happen.
  - It should be expected when employees of diverse backgrounds and work styles are brought together for a shared purpose
- In today’s tense environment, the chance for workplace conflict has increased.
Conflict in the Workplace

• Handling and resolving conflict is one of the biggest challenges employees face.
• Conflict is commonly perceived as negative because it’s often addressed ineffectively.
• Conflict must be resolved in a timely manner, constructively, and professionally.
• Unresolved conflict can have a damaging effect on the organization.
How Does (Unhealthy) Conflict Manifest Itself?

- Insults
- Noncooperation
- Anger
- Bullying
Conflict Isn’t Always Bad

• Some conflict is normal and healthy (healthy tension).
• The most effective teams have members who feel safe when disagreeing with each other.
• Allowing/encouraging dissent can lead to innovation, diversity of thought, better decision making, better products.
Some Causes of Workplace Conflict

• Conflicting priorities
• Competition for resources
• Incompatible goals
• Reactions to organizational changes
• Conflicting perspectives
• age, gender, ethnicity, religion, political views
• Misinterpretation of intentions
• Ladder of inference
• Willingness to address conflict
Some Causes Conflict in the Workplace

- Personality clashes
- Poor leadership/management
- Misunderstood communication
- Poor performance
- Emotional Stress
Unhealthy Conflict vs. Healthy Conflict

• Unhealthy conflict interferes with employees’ ability to work successfully; if not managed effectively, it can be counterproductive or destructive.

• Healthy conflict builds team connections by causing employees to change their attitudes and grow personally and professionally.
Some Effects of Unhealthy Workplace Conflict

- Work disruptions
- Decline in productivity
- Failure of projects
- Absenteeism
- Employee turnover
- Need to terminate employees
- Emotional Stress
Some Effects of Healthy Workplace Conflict

• Positive change
• Better decision making/problem solving
• Stronger relationships
• Increased productivity
• Effective communication
• Better products
Methods of Addressing Conflict

• Avoidance
  • Hope the issue will go away
• Collaboration
  • Work together for a mutually beneficial solution
• Compromise
  • Find middle ground where each party gives a little
Methods of Addressing Conflict

- Competing
  - May the best person win
- Accommodation
  - One person gives up their own needs and wishes to please the other person
Methods of Addressing Conflict

- It’s generally believed that either collaboration or compromise is the best way to deal with conflict.
  - There’s no winner or loser
  - Both sides work together for the best possible solution.
Addressing Conflict

Effective communication is key.
• Address the issue in a face-to-face setting.
• Clearly state the cause of the issue.
• State clearly why you want the conflict resolved.
• Keep focus on the issue.
Some Steps You Can Take

• Assess the situation
• Set up the situation
• Ensure an effective atmosphere
• Communicate for a successful outcome
• Develop options
• Implement a plan
Enjoy the Positive Outcomes

- Cooperation from employees
- Performance and productivity improvement
- Less stress
- Better and more-efficient problem solving
- Improved teamwork
- Better creativity
- Increased morale
Some Types of Workplace Conflict

• Different working styles
• Leadership approach
• Personality conflict
  • The most common type of workplace conflict
• Organization-based
Conflict in the Workplace

Federal executives are expected to know how to address conflict.
ECQs

• Leading Change: Bring about strategic change
  • Encourages new ideas and innovations
  • Rapidly adapts to unexpected obstacles
  • Deals effectively with pressure
  • Builds a shared vision with others

• Leading People
  • Constructively resolves conflicts
  • Value individual differences
  • Inspire and foster team commitment
ECQs

• Results Driven: Meet organizational goals
  • Holds self and others accountable
  • Makes decisions even solutions produce unpleasant consequences
  • Takes calculated risks

• Business Acumen: Manages resources strategically
  • Takes action to address performance problems
ECQs

• Building Coalitions: Build coalitions to achieve common goals
  • Builds consensus through give and take
  • Gains cooperation from others to accomplish goals
Real-World Examples
America’s Original Seven Astronauts
My Goals are Set

Arriving at Langley
Employee-Organization Conflict

Swearing-in ceremony
(well, not exactly)
Making the Transition Go Smoothly
Peer-to-Peer Conflict

Jockeying for computer access
Healthy Conflict

- Peer-to-peer publication review
- Peer-to-supervisor publication review
Advancing Up the Leadership Ladder

• First-level supervision
  • You might have to travel hundreds of miles to move a few feet!!
It Helps to Have a Great Mentor. Or Two
First-Level Supervision

• MAST
• PDP
  • Clearly the best time of my NASA career
  • A real eye opener
Student Turns Supervisor
Tips and Observations

• Set the (shared) direction
• You no longer are “one of the guys.”
• Don’t be the best technical person and the worst leader
• Accomplish organizational goals through leadership influence and management authority
More Tips and Observations

• You are on stage, and the audience never takes an intermission
• Help your people reach their (realistic) career goals
• Determine what’s fair, and make sure your people are treated fairly
• Deal with issues in a timely manner
  • Sometimes you have to change the people to change the people
• Know who you can trust and forge partnerships
So, What Happened to the Other Candidates?

- Two peers applied for the position
- Both were co-workers
  - One healthy situation
  - One very unhealthy situation
- Competition for resources resulted in very healthy situations
  - Required a lot of trust between managers
Get Better and Prepare to Advance

• Copy those who have done what you want to do
• George Washington University
  • Linear/Nonlinear Control Theory
  • Contemporary Executive Development
• Pennsylvania State University
  • Engineer/Scientist as a Manager
• Senior Executive Service Candidate Development Program
NASA Contributions to Modern Aircraft
Next-Generation Aircraft

• What do we do next?
• Assembled an Agency-wide team to decide
Be Prepared to Take Some Well-Calculated Risks

Research & Technology

- Structures
- Materials
- Turbomachinery
- Instrumentation & Controls
- Communications Technology
Plenty of Conflict Leading R&T

- Leading in a matrix environment
- Lead only the civil servants
- Deciding the important competencies and planning to enhance them
- Acquiring a workforce that represents America
- Ensuring recognition, development, and career advancement of employees
- Ensuring that employees have realistic goals
- Building a technically excellent leadership team that genuinely cares about the workforce
Leading R&T

- Dealing with reporting issues
- Address the workforce’s concerns
  - Poor performance
  - Rewards system
- Lead with courage
- Be prepared for those personnel situations for which you can’t be prepared
  - Employee-contractor issue
  - Employee-supervisor issue
Research vs. Human Resources
STS-107 Crew
Be Willing to Break the Rules if They Conflict with Progress
The Meeting

Fred Gregory, NASA Deputy Administrator

Sean O’Keefe, NASA Administrator

Now, This was a Regular Part of My Life
My Defense Shield

- The Congress approved and the President signed the National Aeronautics and Space Administration Authorization Act of 2010
  - Bipartisan support for human exploration beyond Low Earth Orbit
- The law authorizes:
  - Extension of the International Space Station until at least 2020
  - Strong support for a commercial space transportation industry
  - Development of a multi-purpose Crew Vehicle and heavy lift launch capabilities
  - A “flexible path” approach to space exploration opening up vast opportunities including near-Earth asteroids (NEA) and Mars
  - New space technology investments to increase the capabilities beyond low Earth orbit
